Referring to Figure 1B, the corresponding steps in operation of an ~~authorised~~authorized recipient server begin at STEP 150 with receiving the public encryption key sent by the first server at STEP 100. As discussed above in relation to STEP 100, this initial step may involve several interactions with the first server to ensure secure transfer of the public key. At STEP 155, the encrypted number list is received as sent by the first server at STEP ~~140~~115. At STEP

160 the recipient server decrypts the number list using the earlier-received public encryption key and is thereafter ready to receive data packets from the first server.
